CONTRAPOSITION

FORMAL MINIMALISM

I am passionate about expressing the maximum with the minimum. To find the perfect balance between the simple and the complex, to transmit sensations of harmony and beauty. My work invites the viewer to reflect through contemplation and dialogue with the surrounding space.

Essence through the materials, respecting their nature and expressiveness.

Dynamic **Balance** between emptiness and fullness, light and shadow, movement and stillness.

Purity of form through reduction and simplification.

*"Line and Curve,
Chaos and Order,
Empty and Full"*

STONE SERIES

"Your strength overwhelms me, your silence unsettles me.
Imperturbable in time, you seduce me with your cold heart.
Divine stone, object of desire."
